

EDUCATION

Master of Computer Application, BMS College of Engineering	2024 — 2026
Bachelor of Computer Application, Oxford College	2021 — 2024
PUC(PCMB), Christ college	2019 — 2021

TECHNICAL SKILLS

Languages	JavaScript, Python, PHP.
Technologies	NodeJS, Restfull API's ,ExpressJS, MongoDB, Sql, HTML, CSS ,ReactJS
Tools	Git, GitHub, Linux, Git Bash, VS Code.
Soft skills	verbal and non-verbal communication skills, Critical thinking, Analytical skills, Proactive.

PROJECTS

Site-Crafter (Link)	JAN 2025 — APR 2025
- Built an AI-powered website that automates web development measured by reducing development time for users by 70% by integrating real-time markdown, web containers, and code generation. - Engineered a scalable and efficient platform measured by ensuring high performance and security by leveraging TypeScript, Node.js, React.js, Tailwind CSS, MongoDB, and Google OAuth. - Enabled non-technical users to create professional websites measured by eliminating the need for coding knowledge by incorporating natural language processing for instant frontend and backend code generation.	
PathGPT (Link)	OCT 2024 — NOV 2024
- Designed and deployed an AI-driven career recommendation platform using the MERN stack and Gemini API, enabling personalized career and course guidance for over 150+ users. - Leveraged the Gemini API for advanced natural language understanding, enhancing the accuracy of career suggestions by 95% and improving the overall decision-making experience for users. - Built a responsive and intuitive frontend interface with React.js, ensuring seamless interaction and high engagement, processing 1000+ user inputs daily.	
Anime Verse (Link)	AUG 2024 — SEP 2024
- Exceptional user experience accomplished by integrating APIs and delivering timely updates and new episodes for both watching and downloading, resulting in streamlined content delivery and enhanced user engagement capabilities. - Ensured seamless content delivery by developing a robust content management system, achieving 99.9% uptime and minimal downtime. - Maintained data security and integrity by implementing robust SQL queries and PHP coding, achieving zero data breaches and 100% data precision.	

PROFESSIONAL EXPERIENCE

Python Full Stack Developer (Intern) Qspiders(Incubation Program)	APR 2024 —OCT 2024 Bengaluru
Technical proficiency and analytical abilities enhanced by hands-on experience with Python, SQL, and problem-solving techniques during the QSpiders internship, resulting in superior coding skills and data analysis capabilities. - Proactive approach to learning and professional growth, demonstrated by seeking out new challenges and opportunities to expand technical skill set and stay up-to-date with industry trends.	

CERTIFICATES

- Data Analytics Essentials By Cisco(Link)
- Full stack Vue JS Express MongoDB By MindLuster(Link)

AWARDS & ACHIEVEMENTS

- Awarded **first place in Code Conquest Competition**, demonstrating exceptional **problem-solving skills** and **code optimization**, resulting in recognition for software quality and attention to detail under pressure.
- Outstanding performance achieved in the **Cloud Technology** Debate Master Competition by demonstrating **exceptional research, critical thinking**, and **persuasive presentation skills**, resulting in effective communication that engages diverse audiences.
